Certificates

AWS Cloud Practitioner Essentials ▪ Amazon Web Services (AWS)

06/2025

Completed the AWS Cloud Practitioner Essentials certification, which provided a solid foundation in cloud concepts and AWS services. This training covered key topics like security, pricing, and support, helping to understand how to leverage AWS for various business needs. Gained insights into best practices for cloud adoption, making it easier to contribute to discussions about cloud strategies and implementations within teams.

Deloitte Australia - Data Analytics Job Simulation ▪ Forage

ju6JLt6heJy9agdH3

06/2025

RESUME

Completed the Data Analytics Job Simulation through Deloitte Australia via Forage, which provided hands-on experience in real-world data analysis scenarios. This simulation focused on extracting insights from data sets, helping to develop critical skills in data interpretation and visualization. Engaging with practical case studies allowed for a better understanding of data-driven decision-making, which is essential in today's business environment. Successfully navigating complex challenges within the simulation enhanced problem-solving abilities and improved competency in using industry-standard analytics tools.
